Appearance and Dress Code

1. Introduction

All staff and volunteers at Nottinghamshire Hospice should dress smartly and appropriately to meet the needs of the area they are working in and remain in compliance with any relevant external codes of conduct applicable to their role. This policy is designed to provide a consistent professional appearance to our patients, patient families and carers, customers, colleagues and those who come into contact with Nottinghamshire Hospice.

In clinical areas appropriate steps should be taken at all times to minimise the risks of infection and cross contamination for patients.

2. General Dress Code – all areas

- Staff and volunteers must always present a clean, professional appearance.
- Everyone is expected to be well-groomed and wear clean clothing, free of holes, rips, tears, or other signs of wear.
- Clothing with offensive or inappropriate designs or logos are not allowed.
- Clothing should not be too revealing.
- Clothing and grooming styles dictated by religion or ethnicity are exempt (so long as they comply with infection control and health and safety policies).
- Sensible shoes (appropriate to job role) must be worn at all.
- Any tattoos that could be deemed as offensive by others must be covered up
- Any new tattoos must be covered over for infection control purposes.
- Personal protection clothing supplied by the Hospice must be worn during appropriate duties.
- Hospice issued identity badges must be worn at all times using the lanyard provided.
- Hair styles must convey a professional appearance.

3. Clinical Areas – Dress Code

For Health & Safety reasons, the following dress code must be adhered to in clinical areas (including patient homes):-

- Clean and ironed uniforms must be worn at all times (if a uniform is provided);
- Long hair to be tied back;
- Nails to be kept short and clean with no nail varnish or nail art;
- Name badges to be worn on Hospice lanyards.
- No neck ties or scarves;
- No false nails, hand or wrist jewellery (other than a plain wedding ring or one other plain band) when providing clinical care;
- No long necklaces or visible piercings apart from ear studs;
- Bare arms from elbows down.
- For infection control purposes, uniform must be removed or covered if visiting a public space (e.g. shop) while on duty or travelling to and from work in uniform.

4. Dress Code Violations

Managers are expected to inform staff and volunteers when they are violating dress code. Staff and volunteers in violation are expected to immediately correct the issue. This may include having to leave work to change clothes.

Repeated violations or violations that have major repercussions may result in disciplinary action, including dismissal under the Disciplinary Policy and Procedure.
